

About:

With strong expertise in Machine Learning and Computer Vision, Autodrive Technologies Pvt Ltd offers camera based smart solutions. Our flagship product Driver Monitoring System, provides real time alerts to reduce road accidents. Using same technology stack, we also offer Face Recognition based attendance management system.

Covid -19 Project

As confirmed cases of COVID-19 continue to rise, WHO is recommending everyone to wear a face mask whenever going outside. Face masks can help prevent the spread of the disease and protect someone from getting sick.

To improve adherence to facemask guidelines, our camera detects alerts for people not wearing face masks. The camera will be very useful for delivery vehicles, offices, malls etc.
